

Chilisin Electronics Corp sincerely expresses our condolences to the people of Japan who lost their lives, family and property from the recent massive earthquake and tsunami. Wish Japan will soon recover from this disaster and back to normal.

Chilisin production line is operated regularly and will fulfill all our committed delivery to customers for the coming months. It is grateful that our raw material suppliers in Japan don't locate in the disaster area and all of our inventories are still above safety stock level.

For any urgent order request, please kindly contact our sales region to update the rest capacity. We will keep following the latest status for all of our supply chain they may encounter shortage in the near future.

Chief Operation Officer
